

Illinois Green Product Environmental Disclosure

Voluntary Renewable Energy Credit Purchasing

Homefield Energy purchases renewable energy credits (RECs) to offset 100% of its Green product customers' electricity usage. Homefield Energy does not expect to pair any RECs from generators sited in the State of Illinois and has not committed to any particular locations of generators or types of RECs at this time. As a result, below please find information regarding Homefield Energy's Green product procured for the previous period of January 1, 2021 - December 31, 2021.

REC Type	REC Generation Location	Percentage
N/A	Illinois	0%
Hydro	West Virginia	1%
Wind	Kansas, North Dakota, Nebraska, Oklahoma	99%
Total REC Percentage Purchased by Homefield Energy		100.0%
